

Howdy!

Doug Barton

- Currently DNS Administrator for Yahoo!
- Background in operations, development, and policy
- Transitioning to full time IANA work in December
- My position is being added to the IANA staff

Little more background

- Strong believer in open source
- FreeBSD contributor/developer/commmitter since 1998, user since 1995
- Helped run DALnet IRC network years ago
- Minimal (unfortunately) involvement in IETF to date, mostly dnsop and dnsex WG's

- Educational background in Psychology, Philosophy and Religion
- Internet user since 1994
- Member of ICANN Security and Stability Advisory Committee

First things

- Listen
- Listen some more
- Establish strong channels of communication with IANA's various stakeholder communities
- Start developing solutions that meet both of our needs

Please feel free to contact me:

barton@icann.org

Thank you!!
